
VINEETHA PADIMITI

TEAM MANAGER – AI & PROCESS
AUTOMATION | PYTHON DEVELOPER |
ANALYTICS

PROFESSIONAL SUMMARY

Results-driven Team Manager with 10+ years of experience in enterprise content operations, process automation, and team leadership. Experienced in developing Python-based automation solutions, optimizing workflows, and improving operational efficiency through data-driven decision-making. Passionate about building AI-powered applications using GenAI, RAG, FastAPI, and modern cloud technologies to solve real-world business problems and streamline enterprise processes.

EDUCATION

PG DIPLOMA IN DATA SCIENCE

IIIT-BANGALORE (UPGRAD) | 2020-2021

B. TECH IN ELECTRICAL & ELECTRONICS ENGINEERING

VBIT, JNTU-HYDERABAD | 2007-2011

EXPERIENCE

TEAM MANAGER – CONTENT OPERATIONS & PROCESS AUTOMATION, EBSCO, NES, HYDERABAD

JULY 2016 - PRESENT

- Led a team of 9 members managing content operations, service issue triage, and workflow delivery while ensuring SLA compliance.
- Automated **5+ business workflows** using Python, reducing manual effort by **35%** and improving processing time by nearly **2 hours per cycle**.
- Built internal automation tools for reporting, data validation, task tracking, and operational monitoring, improving productivity and process visibility.
- Supported enterprise content pipelines through data profiling, workflow validation, CI/CD deployment support, and production issue resolution.
- Collaborated with cross-functional teams to streamline system integrations, optimize workflows, and enhance operational efficiency.
- Leveraged AI-assisted development and AWS Bedrock to accelerate automation and intelligent workflow solutions.
- Mentored team members, drove process improvements, and promoted a culture of continuous learning and operational excellence.

Key AI Projects

- **Containerized Image Processing Service:** Built a Dockerized FastAPI service to automate image processing and metadata validation for enterprise content pipelines.
- **Intelligent Documentation Lookup:** Built a RAG-powered knowledge assistant to accelerate service issue investigation and resolution using enterprise documentation.

CORE SKILLS

Python | Content Operations | Machine Learning | Fast API |
REST APIs | SQL | RAG | Prompt Engineering | Semantic Search
| Embeddings | Workflow Automation | AI-Assisted
Development | Jenkins (CI/CD) | JIRA | NetSuite | Rally
